

MERCHANT ACCOUNTS

In today's world, businesses depend on electronic transaction services to complete customer purchases, track sales and maintain inventory. Whether you are an independent small-business owner or a multi-store operation, we have a payment processing solution to match your needs. Kinecta has partnered with First Data Corporation¹, a leading global merchant services provider, to offer safe and secure point-of-sale systems, from complete terminals and handheld units, to the latest in mobile card-swiping and scanning equipment.

- Serving industries and businesses of all sizes – from home offices to large corporations
- Debit and credit card processing through MasterCard®, VISA®, AMEX® and Discover® (signature and PIN based), giving your customers choices
- Web-based reporting solutions available 24/7, making managing your finances, sales and inventory easy
- TeleCheck® solutions, so you can accept paper checks and internet ACH transactions with the confidence the transaction is secure
- Latest in POS terminals, handheld, and swipe/scan units available, allowing you to accept payments wherever you may be
- Protect your reputation and your customers' sensitive information with the TransArmor solution - data and payment security via encryption and tokenization ensures there's no sensitive information for criminals to steal
